ABSTRACT

Statistical data for Mississippi's 15 public junior colleges are presented in this document, providing information on enrollments, degrees and certificates awarded, revenues, expenditures, academic salary ranges, learning resources, transportation services, dormitory utilization, and auxiliary enterprises in 1984-85. Introductory remarks and the Board of Trustees' meeting schedule are followed by tables showing: (1) full-/part-time and day/evening enrollments by class and sex, and by district; (2) enrollment data for adult basic education, vocational secondary, and "other" programs; and (3) a summary of degrees and certificates awarded by each campus. Tables focusing on income and expenditures indicate sources of revenue, student fees and charges, tax support, and educational and general expenditures. The final tables present faculty salary schedules; information on staffing and collections at learning resources centers; data on the provision and utilization of transportation services and dormitories; and information on revenues and expenditures of auxiliary enterprises, including food services, housing, and stores. (EJV)

MISSISSIPPI PUBLIC JUNIOR COLLEGES

Fifteen comprehensive junior (community) college districts provide educational programs and services which are accessible to virtually all Mississippi citizens. This has been a goal of these two-year institutions since the first ones began admitting students in 1922. All public junior colleges are accredited by the Southern Association of Colleges and Schools and the Mississippi Commission on College Accreditation.

This network of institutions operates both university transfer and occupationally-oriented programs. Over sixty percent of the Mississippi high school graduates who attend college do so at the junior colleges. A student may transfer earned credits to four-year institutions without loss of credit if the student has followed the recommended course of study. Studies reveal that junior college transfer students perform as well as the native student at four-year institutions.

Junior colleges are the primary delivery mechanism for postsecondary occupational programs in Mississippi. These programs of two-years or less duration are designed to prepare students for immediate employment and for upgrading skills of those currently employed. Training programs in more than one hundred occupational skills are provided by the schools.

Junior colleges also provide a variety of continuing education, community and public service activities. A characteristic of Mississippi's junior colleges is their flexibility to respond to needs of a given segment of the state's society. This sensitivity is the result of an administration and a board of control operating at the local level.

Cooperation by the various junior colleges on state-wide endeavors and necessary coordination by the state-level Junior College Commission combine with local control to form a state-local partnership in the operation of Mississippi's two-year institutions. They are financed by state appropriations, local district taxes, student fees, and federal grants.
